

# HELLO!

## My name is **Fernando Goerl**

*I'm a Front-end Developer*

I have a college degree in Multimedia Production, I'm a hardworking team-player and I'm always trying to find better solutions for every problem that comes my way.

My love for new technologies started early, so in 2007 I began studying Computer Science. During that time I've worked as a web developer and decided to acquire web design skills through extra courses, where I discovered new opportunities and decided to study Multimedia Production, learning more about mobile applications, websites, animations and interactive media.

Even though I work as a developer, expanding my knowledge to the multimedia area allowed me to develop new and important skills to become a more complete Professional and Lead Front-end.

Currently, I'm working as a senior developer and I'm studying new technologies like Vue and Electron.

### 02. EXPERIENCE

**2018 - Present RCA DIGITAL**

#### SENIOR FRONT-END DEVELOPER

RCA Digital is a Software Development company, where I work as a Front-end Developer Senior, mostly on Angular 2+ SPAs, with Sass and Bootstrap for stylization and GIT for version management. All the projects I've worked on are Responsive and Cross-Browser.

**2017 - 2018 NUMO COMPANY**

#### LEAD FRONT-END DEVELOPER

Numo is a startup that develops mobile apps and websites. At Numo Company, I worked as the Lead Front-end Developer at Senior level. Most of the projects were build with Angular or React Frameworks, using GIT and Agile methodologies.

**2013 - 2016 SORTIMENTOS**

#### WEB DEVELOPER

The Sortimentos Group is an online news aggregator focusing mainly on Technology, Entertainment and Fashion. I worked as a Web Developer, using technologies such as HTML5, CSS3, Javascript, JQuery and GIT.

## 03. EDUCATION
